

**PERFORMANCE
ANNOUNCEMENT (DoP)
Nro.52800**

Product:

Vieser One Air Admittance Valve DN50/75/110 (Vieser nro: 52800 / EAN: 641 868 5528001)

Use of Construction product:

An air admittance valve is meant to be used in connection with a vent pipe that vents the air directly outdoors. The negative pressure valve improves the functionality of a single sewer branch that is difficult to connect to the actual vent pipe.

Manufacturer:

Vieser Oy, Keskustie 23, 61850 Kauhajoki. Puh. +358 020 756 4400, www.vieser.fi

Evaluation and verification system for the performance of a building product:

System 4 (Attestation of conformity system 4)

Announced performance levels:

Qualities	Performance level	Uniform technical specification
	B I	EN 12380:2002
Air proofing	500 Pa	EN 12380:2002
Operating temperature	-20C - + 60C	EN 12380:2002
Flows	DN50 19l/s, DN75 26l/s, DN110 28l/s	EN 12380:2002
Functionality under 0 °C temperature*	-20C - +60C*	EN 12380:2002

* the placement of product must take into account for local construction regulation.
